

TEMPORARY ONE-WAY DETOUR

Brown Road Improvement Project

AS WORK CONTINUES ON THE BROWN ROAD IMPROVEMENTS PROJECT, TEMPORARY TRAFFIC CHANGES WILL SUPPORT CONSTRUCTION AND UTILITY UNDERGROUNDING.

As work continues on the Brown Road Improvements Project, temporary changes to traffic patterns will be implemented to support ongoing construction activities and utility undergrounding.

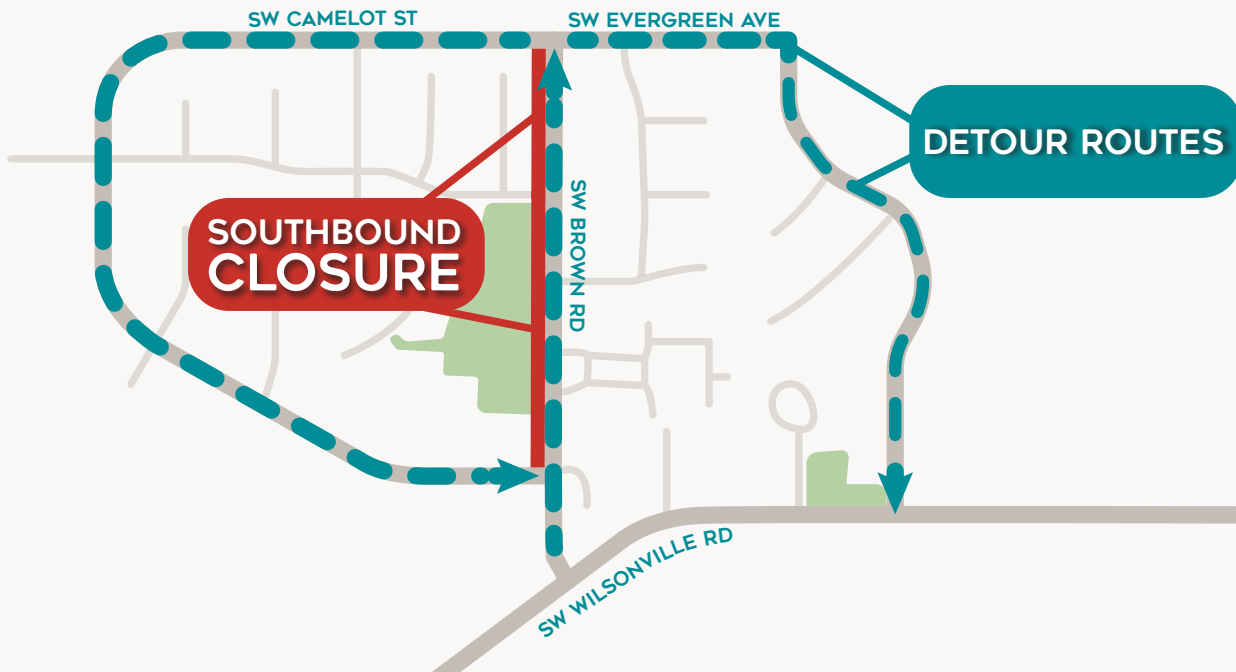

Beginning Monday, August 24, southbound Brown Road will be closed through the completion of the utility undergrounding work. The northbound lane of Brown Road will remain open to traffic at all times during the work. Motorists traveling toward Wilsonville Road will be directed to use Evergreen east to Montebello Road as the designated detour route.

Local access to properties along Brown Road will be maintained via Camelot Road to the west. Residents and

local traffic should follow posted signs and traffic control directions when accessing the area.

We understand that temporary traffic changes may require additional planning and appreciate your patience and flexibility while this work is completed. These temporary measures will allow construction and utility undergrounding activities to continue safely and efficiently while maintaining local access.

WHAT TO EXPECT

- Southbound Brown Road will be closed through completion of utility undergrounding.
- Traffic traveling to Wilsonville Road will be detoured east on Evergreen to Montebello Road.
- Local property access will remain available via Camelot Road to the west.
- Detour and traffic control signage will be installed to guide motorists.
- The temporary traffic configuration will remain in place through completion of the utility undergrounding activities.
