

WHAT IS A A WATERSHED?

OUR COMMON GROUND

"THE WATER
CYCLE IS AN
IMPORTANT PART
OF WATERSHEDS"

Watersheds can be local
or larger, regional
geographic areas.

Watersheds connect
individuals and
neighborhoods to one another.

Watersheds contain
both the built and natural
environments.

WATER
CYCLE!

"RIVERS
START
FROM RAIN
GOING DOWN
A MOUNTAIN"

"A WATERSHED IS A LAND AREA THAT CHANNELS RAINFALL AND SNOWMELT
INTO CREEKS, STREAMS, RIVERS AND EVENTUALLY OCEANS"

The images and words used in the creation of this educational poster were contributed by the 5th Grade class of Boeckman Creek Primary School in 2022. In collaboration with CREST, students created informational artwork which helped inform and shape the Our Common Ground poster series.

Poster design and layout by Samara Group, LLC.
